STRUCTURE

- ① **1st Overlay STP Classic.** High-performance protective overlay consisting of up to 12 coats combining stained, primer, and protective varnish, to give to the product a resistant finish and create an oil effect at the same time.
- ② **1st Layer.** Noble wood of 3/4 mm thickness (depending on collection and finish), micro-beveled on all four sides.
- ③ **(3-11) Central Layer.** Composed of 9 alternating layers of 100% birch plywood that works as an internal shaft and gives to the whole structure greater strength and stability (Thickness 12mm / 0.47").
- ⑫ **2nd Overlay.** Waterproofing varnish. Made of a layer of pore-filler varnish which helps to ensure the compact plan configuration of the piece.

SYSTEM

LOCKSTP[®]

EXCELLENT GLUELESS SYSTEM

Patent-protected
worldwide

LockSTP is a world-wide patented system, based on alternating tongues and grooves in a modular size of 290 mm which, together with the precise interlocking rings, provide a perfect bond without the use of adhesives.

An innovative glueless flooring system that allows unlimited and flexible unique designs every time.

100% Made in Spain
